

DPG LAW COLLEGE

(Approved by BCI & Affiliated to MDU, Rohtak)

Ref. No. DPG/Law/148/GEN.

Date:- 27.12.2025.

To,
The Director (U.C.C.)
M.D.U. Rohtak.

Subject:- Uploading of advertisement copy of Principal, Teaching and Non-Teaching posts
on University Website.

Sir,

Posts of Principal, and various teaching and non-teaching advertised on 21.12.2025 in the
Newspaper Dainik Jagran (Hindi), Dainik Tribune (Hindi) and The Tribune (English) copy of the
advertisement has been displayed on College notice board and College website also. It is requested
to kindly upload the advertisement copy on University website.

With Regards

Officiating Principal
DPG Law College, Gurguram.

Pvt Universities Bill prepares ground for action against Al Falah varsity

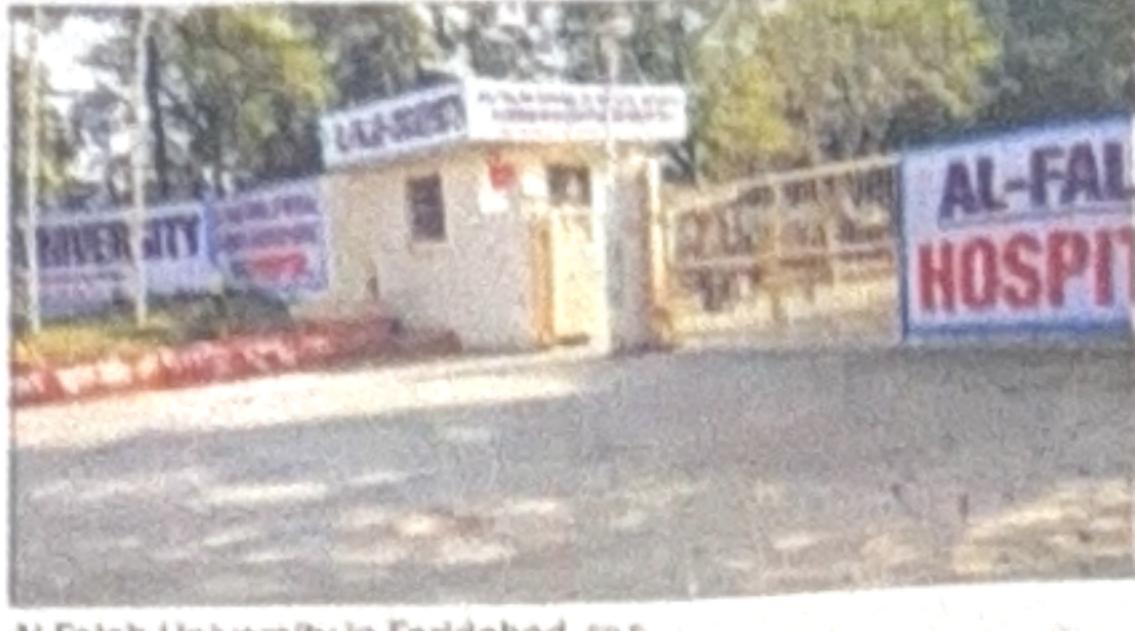

PRADEEP SHARMA

TRIBUNE NEWS SERVICE

CHANDIGARH, DECEMBER 20 The Saini government is set to tighten the noose around Faridabad-based Al Falah University, under the scanner for allegedly facilitating a 'white-collar terror module', as also other private universities, with the introduction of the Haryana Private Universities (Amendment) Bill, 2025.

Higher Education Minister Mahipal Dhanda introduced the Bill in the state Assembly on Friday, outlining stringent measures, including dissolution of the management body of the university and taking over its functioning through the appointment of administrator. The government will exercise these special powers under certain circumstances.

The stringent provisions of the Bill, likely to be passed by the Assembly tomorrow, will have a direct impact on the functioning

Al Falah University in Faridabad. FILE

WHAT THE BILL SAYS

- The Bill mentions circumstances, including grave lapses in matters relating to national security, sovereignty and integrity of the country and public security, under which government can take action against a university
- If any such act has occurred, the government may order any inquiry and appoint an inquiry officer
- On the basis of the inquiry report, it may recommend dissolution of the university's management committee and appoint an administrator

of Al Falah University.

'The circumstances (under which government can act) include any grave lapses, including matters relating to national security, sovereignty

and integrity of India, public security, law and order, misuse of university premises for unlawful and anti-national activities or any other serious act prejudicial to public interest.

If any such act has occurred, the government may order any inquiry and appoint an inquiry officer

On the basis of the inquiry report, it may recommend dissolution of the university's management committee and appoint an administrator

against a university

a seven-day show-cause notice. 'Upon consideration of the reply to the show-cause, if the government is not satisfied, it may appoint an administrator for a period of three years,' the Bill said.

Other penalties for erring universities include the stopping of admissions, minimum penalty of Rs 10 lakh and dissolution of the university in a phased manner.

Dhanda asserted that under the current provisions, there was no provision for the dissolution of the university and the appointment of the administrator. 'A new provision needs to be inserted to streamline the procedure,' he said.

Under the proposed law, the inquiry officer or committee shall conduct an inquiry and submit the report to the government within 30 days. The committee will be vested with the powers of a civil court under the Code of Civil Procedure, 1908.

On receipt of the report, if the government thinks that the university had contravened the law, it would issue

Intensify action on pollution, waste: Centre to G'gram, Fbad

TRIBUNE NEWS SERVICE

GURUGRAM, DECEMBER 20

With the pollution crisis deepening in NCR cities, the Union Ministry of Environment, Forest and Climate Change has directed the district administrations of Gurugram and Faridabad to step up action on air pollution, waste management and urban sanitation.

The directives were issued after a high-level review meeting chaired by Union Environment Minister Bhupender Yadav, which focused on improving air quality, enforcing vehicle compliance and ensuring time-bound implementation of urban reforms.

'The university shall not commence the first enrolment of the students without specific authorisation of the government,' it stated. After a proper inquiry, the government has been authorised to cancel the permission to continue the course.

The Higher Education Department, through another provision, has been authorised to conduct annual academic and administrative audit of university for ascertaining the standards of teaching, examination and research.

Union Environment Minister seeks data-driven approach, monthly reports

(SHGs) and public representatives to enhance community participation.

The Minister emphasised the use of technological solutions, capacity building of safai karamcharis and stronger public behaviour change initiatives, particularly targeting youth. He further stressed that IEC activities should be customised for specific target groups and include awareness of applicable laws and regulations.

Highlighting the need for evidence-based policymaking, the Minister 'emphasised the need to identify pollution hotspots, understand the underlying causes, and implement targeted corrective measures.' He also directed officials to submit month-wise action taken reports for ministerial-level review.

Urban greening was identified as a key priority, with directions to increase green cover in public spaces across both cities.

The municipal authorities of Gurugram and Faridabad were further instructed to fast-track solutions to long-pending municipal solid waste (MSW) and legacy waste issues. The Minister 'also instructed the Municipal Commissioners of both cities to prepare integrated action plans' and to expedite end-to-end paving of roads to curb road dust.

Traffic congestion and vehicular emissions were also discussed, with the Minister directing officials to identify congestion hotspots and implement short-term, easily executable measures, including removal of unnecessary police barricading, elimination of illegal parking and creation of structured parking facilities.

Gang rivalry behind firing at liquor shop, says Rohtak SP

PANIPAT, DECEMBER 20

The shooting at the liquor shop in Ritol village of Rohtak district on Friday evening was a result of a five-year-old gang rivalry between Himanshu, alias Bhai, and Sunny of Ritol village over the non-payment of instalments of buses.

Sunny had murdered Himanshu's cousin in March 2022. To exact revenge, Himanshu murdered Hansraj, a close associate of Sunny. Sunny's uncle was also

murdered in June this year. Sunny, along with Deepak of Sudana village and some other associates, was seated inside a Fortuner near the liquor shop when youths in another car, both belonging to Jhajjar district, attacked them.

Rohtak SP Surender Singh Bhoria said five youths fired at the Fortuner. Deepak was shot in his stomach and shoulder. A case has been registered on the basis of Deepak's complaint, added the SP. Two of the assailants also sus-

tained injuries, and one of them died. The deceased has been identified as Deepanshu of Mehra village, and the injured as Rohit of Asoda village. Both belong to Jhajjar district.

As many as 11 criminal cases, including murder, attempt to murder and other violent crimes, are already registered against Rohit. He is a convicted felon who was released on parole. He has been admitted to a private hospital in Jhajjar, said the SP. — TNS

Shots fired at CCTV camera; FIR filed against spouse of dist Congress chief

OUR CORRESPONDENT

SIRS, DECEMBER 20

The police in Sirsa district have registered a case after an incident of firing at a CCTV camera, allegedly carried out by the husband of district Congress president Santosh Beniwal in Darba Kalan village. The attack, linked to a personal rivalry over a liquor contract, also involved threats to the complainant's family, officials said.

According to the complaint filed by Akash Beniwal, accused Nand Lal aka Kalu Contractor, husband of Santosh Beniwal, targeted a CCTV camera on Beniwal's private plot and fired three to four rounds and completely damaged it.

He allegedly threatened them, saying the next attack would be on the complainant's family. The incident was captured on CCTV footage and submitted to the police.

The police said the dispute stems from a legally operated liquor outlet in the

Nathusari Chopta area, previously held by the accused.

The complainant alleged that after losing the contract, the accused began harassing the family and is involved in illegal liquor trade.

The Nathusari Chopta police, along with a crime scene team, collected evidence, including broken camera parts and metal fragments, which were sent to the Regional Forensic Science Laboratory in Hisar. The forensic report confirmed gunshot damage and firearm residue.

Nodal officers to stop discharge of untreated sewage into Yamuna

MUKESH TANDON

TRIBUNE NEWS SERVICE

PANIPAT, DECEMBER 20

To curb pollution in the Yamuna, Chief Secretary, Haryana, has appointed special nodal officers of various departments to stop the discharge of untreated sewage, solid waste or industrial effluent from illegal points into the 11 drains that lead to the Yamuna.

According to the sources, the Haryana State Pollution Control Board (HSPCB) has made a detailed action plan to control pollution in the Yamuna.

The HSPCB in its reports said that a total of 11 drains, including Dhanaura drain in Yamunanagar, Drain 2 in Panipat, Drain 6 in Sonepat, Mungeshpur drain, KCB drain and drain number 8 in Bahadurgarh, Leg-1, Leg-2 and Leg-3 drain in Gurugram, Leg-1 drain in Faridabad and Gaunchi drain in Ballabgarh/Palwal lead to the Yamuna river in the state.

The water quality of these 11 drains is being monitored on a monthly basis and the water quality of drain-6, Leg-1 drain, Leg-2 drain, Leg-3 drain and Budhiya Nala is alarming.

The HSPCB conducted a detailed survey of these 11 drains and identified the points from where the sewage, solid waste or any type of industrial or hazardous waste is being dis-

ALARMING SITUATION

■ The water quality of these 11 drains is being monitored on a monthly basis.

■ The water quality of drain-6, Leg-1 drain, Leg-2 drain, Leg-3 drain and Budhiya Nala is alarming.

charged into these drains without treatment in the sewage treatment plants (STPs) and common effluent treatment plants (CETPs).

Following the HSPCB's report, a high-level meeting of the River Rejuvenation Committee (RRC) was held under the chairmanship of Chief Secretary Anurag Rasogi recently.

The Superintending Engineer (SE) of Public Health Engineering Department (PHED) has been appointed special nodal officer for Dhanaura drain in Yamunanagar; Chief Engineer, MC for Drain-2 in Panipat; Chief Engineer, MC for Sonepat area; XEN, HSPCB for Mungeshpur drain in Bahadurgarh; SE, PHED for KCB drain in Bahadurgarh; Chief Engineer, PHED for Drain-8 in Bahadurgarh; Chief Engineer, MCG for Leg-1 drain in Gurugram; XEN, GMDA for Leg-2 and Leg-3 drains in Gurugram; Faridabad Metropolitan Development Authority for Budhiya Nala and SE, PHED for Gaunchi drain.

With 99% DNA success rate, state sets benchmark in POCSO forensics

TRIBUNE NEWS SERVICE

CHANDIGARH, DECEMBER 20 Responding to recent media reports highlighting a high number of negative DNA results in Protection of Children from Sexual Offences (POCSO) cases in some states, including Punjab, Additional Chief Secretary (Home) Dr Sumita Misra today said Haryana has established a scientifically robust, three-tier forensic protocol that has emerged as a national benchmark, achieving a 99 per cent DNA positivity rate with negative reports of less than 1 per cent.

The CM said the buyers could now apply for registration online from their homes and the Tehsildars are required to complete registrations within a fixed time-frame. If a registration is not completed on time, the tehsildar concerned must submit a written explanation to the government. If the explanation is found unsatisfactory, disciplinary action would be initiated and the responsibility of the registration would be transferred to a senior officer, he said.

The CM was addressing a Dhanwadi rally and Jan Samvad programmes in villages of Ladwa Assembly constituency on Saturday.

SIRS, DECEMBER 20 The winter migration season has begun at Ottu Barrage and Ludesar Lake in Haryana's Sirsa district, with early flocks from Asia and Europe arriving after the first snowfall in their native habitats.

Common coots, northern shovelers, common pochards, sandpipers and wagtails are among the first visitors, and most are expected to stay until mid-February.

With the arrival of the initial groups, the Wildlife Department has stepped up security at both sites to curb poaching. Officials said the birds are flying in from regions including France, Germany, Italy, Belgium, Croatia, Sweden and Siberia, seeking food-rich wetlands and milder weather.

Situated nearly 4,000 km from major Asian habitats and about 8,000 km from parts of Europe, Sirsa has long been a key winter refuge for migratory species. Over

40 mobile vans, ₹101-crore equipment push to strengthen investigations

Explaining the model, Misra said Haryana follows a 'scientifically filtered, step-wise approach' comprising three critical stages. 'First, a time-critical medical examination of alleged victims is conducted within prescribed timelines to ensure meticulous collection, forwarding and documentation of physical evidence,' she said.

'The second tier involves rigorous preliminary biology and serology screening of all

collected samples to detect biological fluids before proceeding to DNA profiling. This acts as a crucial gate-keeping step to identify samples with indicators of sexual assault,' she added.

Misra said the third tier involves 'world-class advanced DNA profiling undertaken only in cases where preliminary findings show positive biological markers,' thereby positioning DNA analysis 'as a confirmatory

tool rather than a blanket screening mechanism'.

She said Haryana was continuously upgrading its forensic infrastructure. 'An investment of ₹8 crore has been made this financial year to establish state-of-the-art DNA and cyber forensic facilities,' she said, adding that a new DNA Division at the Regional Forensic Science Laboratory in Hisar. The forensic report confirmed gunshot damage and firearm residue.

The state has also deployed 40 mobile forensic vans and approved ₹101 crore for procuring modern forensic equipment.

Migratory birds return to Sirsa, but pollution shrinks numbers

ANIL KAKKAR

the years, nearly 20 types of winter migrants have been recorded at the two water bodies, drawing bird lovers from across the district.

Local researchers — Dr Vivek Goyal, Dr Sanjeev Goyal and Dr Nisha — have documented more than 250 bird species in Sirsa. They say Ottu Barrage and nearby ponds, including the one at Ludesar village, hold strong potential to host large numbers of winter migrants each year.

Ottu Reservoir, an important wetland supporting irrigation in the region, has once again turned into a vibrant seasonal habitat. Dr Vivek Goyal said the return of migratory birds marks one of Sirsa's most vibrant wildlife periods and underlines the ecological significance of this often-overlooked wetland.

Each winter, birds using the Central Asian Flyway — a major migratory route stretching from Mongolia and Kazakhstan to the Indian subcontinent — reach

Early counts indicate that 4,000 to 5,000 birds are currently present in Sirsa district.

vegetation and abundance of insects make the reservoir a safe feeding ground.

Species recorded this year include common coots, northern shovelers, common teal, gadwalls, Eurasian wigeons, greylag geese and bar-headed geese. Waders such as black-tailed godwits, common redshanks and ruffs have also been sighted, while marsh harriers circling overhead point to a robust food chain.

However, District Wildlife Inspector Jayvindra Nehra said the overall number of migratory birds is lower than last year due to rising pollution levels in the Ghaggar River. 'People may say different things, but the truth is that pollution is keeping many migratory birds away,' he said. 'Only territorial birds are being seen in good numbers, while migratory species are fewer.'

He added that black-winged stilts — a species known to tolerate polluted water — are more prominent this year. Nehra also flagged manpower shortages, noting that the department has only one wildlife guard for the entire district, making monitoring difficult. Still, he said local residents and NGOs are assisting in safeguarding the birds and preventing poaching.

Conservationists warn that unless issues such as water scarcity and pollution are addressed, Ottu's ecological balance may deteriorate in the coming years.

शनिवार को स्वजन को सौंप दिया। अभी तक आत्महत्या के कारणों की जानकारी नहीं मिल पाई है।

मृत युवती की पहचान मूल रूप से आगरा के सराय बोदला गांव की रहने वाली अफसाना के रूप में की गई। बताया जाता है कि अफसाना का आगरा के ही रहने वाले बंदू नाम के युवक से प्रेम प्रसंग था। दो साल पहले वह घर से बिना बताए ही युवक के साथ रहने के लिए गुरुग्राम आ गई थी। यहां दोनों शक्ति पार्क में लिव-इन में रह रहे थे। शुक्रवार को बंदू काम पर चला गया, जब रात में वापस लौटा तो अफसाना का शव फंदे पर लटका मिला। पुलिस के मुताबिक जांच के दौरान कोई भी सुसाइड नोट नहीं मिला। आत्महत्या का कारण भी सामने नहीं आया है। दोनों की सात महीने की बेटी भी है।
